About the workshop: It is fun, hugely imaginative and functional as making small artwork can help you recycle your drawings, prints and samples into beautiful cards for any occasion.

You will explore your favourite art mediums like watercolour, colour pencil, paint, ink and collage, with acrylic stamps,, die cuts, stencils and embossing folders. It is an easy way to enhance your artistic ideas and gather a great collection of gifts for your family and friends.

Whether you are a beginner or a seasoned artist, this process of working smaller will help you to try new ways of making art from your stash of supplies and seeing the potential for expanding your mixed media toolbox.
